TAFT IS HISSED BY SUFFRAGETTES

Delivers Address at Convention of Womens' Suffrage Association

Informes the Convention That He is Not in Favor of the Suffrage Movement and Hisses Result.

Emerges Triumphant After Gently Rebuking His Listeners and Hands Out Some Good Advice.

By Associated Press.
WASHINGTON, April 14.—The president of the United States, the first chief executive of the nation to ever greet a convention of women suffragists, tonight had the courage to confess his opinion and was hissed. The president was welcomed to Washington the delegates to the convention of the National Woman's Suffrage association. He told them he was not in sympathy with the suffrage movement and was explaining why he could not subscribe fully to its principles. He said he thought one of the dangers in granting suffrage to women was that the women, as a whole, were

not interested and that the ballot, as far as women were concerned, would be controlled by the "less desirable class."
When these words fell from the president's lips the walls of the hall echoed with a chorus of feminine hisses. After quiet was restored the president said "Now, my dear ladies, you must show yourselves capable of suffrage by exercising that degree of restraint which is necessary in conducting government affairs by not hissing." There was no more hissing while the president continued his address, which he characterized as, "My Confession," on the woman suffrage question.

CONSOLIDATED MILL TO RESUME IN FIVE DAYS

Special to the Bonanza.
GOLDFIELD, April 14.—The Goldfield Consolidated mill, which was put out of commission last week on account of the fire, will resume within the next five days with from seventy to eighty stamps in operation. A tramway has been constructed to convey the ore to the bins pending the reconstruction of the conveyor which was destroyed entirely. The company will make several shipments of the high grade ore from the Claremont shaft, and it is believed that the profits for the month will be about normal, when the returns from these shipments are made.
The officials of the company are now engaged in making out the checks for the dividend declared in January, and when paid this will bring the total dividends near the eight million mark.

TAFT SPEEDS FIRST BALL OVER HOME PLATE

By Associated Press.
WASHINGTON, April 14.—President Taft today enjoyed the novel experience of seeing the Washington American league team win a ball game. Last year he saw Washington play Boston late in the season, but the local players got stage fright when the president arrived and threw away the game. Taft remarked he must be a "hoodoo," and remained away from the ball park the rest of the season. The president was accompanied by Mrs. Taft and a military aide. Taft took an active part in the game by pitching the first ball over the plate. Vice President Sherman also witnessed the game.

JEFF WORRIED OVER CONDITION OF HIS WIFE

By Associated Press.
BEN LOMOND, Cal., April 14.—Refreshed by the relaxation of diversion yesterday, Jeffries returned to the training ground this afternoon. The first stunt on the program was a three round boxing bout with Bob Armstrong. Bag punching and handball followed the boxing. Jeffries is much worried over the impending operation on his wife. Mrs. Jeffries, accompanied by Dick Adams, left tonight for Oakland, where she will undergo the surgeon's knife Saturday morning. The party in honor of Jeffries' 35th birthday tomorrow, will not be held on account of Mrs. Jeffries' condition.

TRAMPS KILLED WHEN FREIGHT CARS WRECKED

By Associated Press.
SPOKANE, Wash., April 14.—Wrecking crews have been working since noon and are unable to clear the Northern Pacific tracks of the mass of wreckage formed when twenty-two loaded freight cars piled up three miles west of this city this morning. They have not reached any bodies, although the legs of one victim can be seen projecting from the middle of the mass. A temporary track around the wreck has been built. George Howarth, a brakeman, was the only member of the crew seriously injured. The others injured and dead are tramps, about twenty of whom boarded the train at Pasco. The bodies of three have been recovered, and seven badly injured are in the hospital. It is said five or six are still under the wreck.

SAM LANGFORD EASY VICTOR OVER JIM BARRY

By Associated Press.
LOS ANGELES, April 14.—In a battle which demonstrated anew the ability of Sam Langford of Boston, as a human fighting machine, and added to the reputation of Jim Barry of Chicago, only as a tribute for gameness and ability to withstand punishment, the "Boston Demon" sent his white antagonist to the mat for the final count in the sixteenth round at the Vernon arena today. The contest was most vicious from start to finish, with the negro in the lead after the first half dozen rounds. From the tenth, in which Barry was twice knocked down for the count of nine, until the sixteenth, when a straight left to the chin ended the combat, it was wholly one-sided.

CONGRESS IS

Anxious to Investigate the SUGAR FRAUDS

Asks President if There is Any Known Reason Why Investigation Should Not Ensnue.

By Associated Press.
WASHINGTON, April 14.—If not incompatible with public interest, Taft will tell the house what facts, if any, exist that would make it inexpedient for that body to enter upon an investigation of the frauds in the customs service and especially the disclosures of the sugar frauds.
A resolution was introduced by Fitzgerald of New York, calling for this information, and passed by the house today, after an extended debate. In view of the recent conference between the president and Representative Hill on the subject, it is believed the information called for will not be given and that a

declination will be based on the discretion as reposed in the president by the resolution, which was finally adopted.
The debate was political, largely, and the names of Henry W. Taft, a brother of the president, and John E. Parsons, the father of representative Herbert Parsons, who figured as counsel for the sugar trust, were mentioned.
Rainey, of Illinois, in speaking, said the attorney general had been the sugar trust attorney; that the brother of the president was still the sugar trust's attorney and that J. E. Parsons of the sugar trust, was under indictment and had pleaded to the statute of limitations.

Under that plan 103,795,000 cubic yards of material have been removed. Subsequently, in order to accommodate vessels of the Dreadnought type and giant liners under construction, the president ordered the widening and deepening of the canal, a cut involving the removal of 70,871,594 additional yards of material and this is all the task of the excavation that now confronts the engineers.

FRIENDS OF DR. COOK STILL HAVE FAITH

By Associated Press.
NEW YORK, April 14.—Friends of Dr. F. A. Cook declare he is still in South America. Captain Bradley S. Usbon, of the Arctic club, a staunch supporter of Cook, gave out the following statement today:
"Dr. Cook will not be much surprised to hear that the Fairbanks expedition did not find his records," says Captain Usbon. "They were left there four years ago, and doubtless have been buried under snow or swept away by Arctic storms. The report of the Fairbanks party that they found an easy way to the summit corroborates Dr. Cook's story of the ascent. I feel more positive than ever that Dr. Cook not only scaled Mount McKinley, but also discovered the North pole."
